Projects

- **BS Unisex Salon – Salon Management Website**: 				April 2025
  - Developed a full-featured salon management website tailored for a unisex salon, streamlining both appointment bookings and product sales.
  - Implemented key functionalities including user/admin authentication, gender-based dynamic service selection, appointment scheduling, product listing, and admin-side product/appointment management using **Laravel**, **Blade templates**, **SQLite**, and **Tailwind CSS**.
  - Enhanced user experience through interactive elements powered by **Alpine.js**, and ensured secure and efficient data handling for both customers and admins, improving overall salon service accessibility and organization.
  - **Technologies Used**: Laravel, PHP, Blade, Tailwind CSS, Alpine.js, SQLite
  - **Github Link**: BS Unisex Salon

- **Personal Finance Tracker**: 					August 2024
  - Enabled users to make informed financial decisions by providing a comprehensive platform.
  - Developed features including user registration, authentication, expense tracking, savings management, and data visualization using **Node.js**, **MongoDB**, and **Bootstrap**, ensuring seamless navigation through an intuitive interface.
  - Empowered users to efficiently track expenses, manage savings, and gain insights through data visualization, which is demonstrated using **Chart.js** by converting stored financial data into interactive and easy-to-understand charts, leading to improved financial planning.
  - **Technologies Used**: HTML, CSS, JavaScript, Bootstrap, Node.js, and MongoDB
  - **Github Link**: Personal Finance Tracker
